Y.S.S. Network

Operational Strategy. Program Delivery. Community Impact.

Y.S.S. Network helps public agencies, nonprofits, and mission-driven organizations move complex initiatives from planning to execution. We provide program management, operational systems, stakeholder engagement, strategic communications, and capacity-building support designed to produce organized, measurable results.

CORE CAPABILITIES

- Program and Project Management
- Operational Systems and Process Improvement
- Stakeholder and Community Engagement
- Strategic Communications and Public Outreach
- Training and Organizational Capacity Building
- Grant Readiness and Funded-Initiative Support

SELECTED LEADERSHIP EXPERIENCE

Experience led or supported by Founder Audris B. Torres.

Program and Intern Management

Manages business education, events, partner coordination, operational systems, and an intern program supporting 8 to 10 participants within a chamber and destination marketing environment.

Public and Community Engagement

Supports public-facing initiatives, communications, stakeholder outreach, civic programming, and LGBTQ+ community engagement through appointed and volunteer leadership roles.

Event and Activation Delivery

Plans and supports community events, business programs, workshops, visitor-facing activations, sponsorship initiatives, and multi-partner projects.

Training and Capacity Building

Designs and facilitates practical workshops helping business owners and community leaders improve operations, communications, technology use, and organizational efficiency.

COMPETITIVE DIFFERENTIATORS

- One accountable strategic lead coordinating planning, implementation, communications, and reporting
- Cross-sector leadership spanning business development, destination marketing, workforce and intern programs, public commissions, and community initiatives
- Translates broad goals into timelines, workflows, assignments, documentation, and measurable deliverables
- Experience engaging government leaders, businesses, residents, community organizations, vendors, interns, and institutional partners
- Culturally responsive implementation grounded in local knowledge, relationship management, and clear communication
- Systems designed for client ownership, sustainability, and continued use after the engagement
